

We put patients first, offering you and your family more time with your physician and a collaborative approach to your wellbeing.

“I honestly wasn’t someone who valued feeling good each day. Dr. Wilder continued to urge me to make changes to my diet and lifestyle so that I too would feel as good as I made sure my family felt. I continued to say I didn’t “have time” or I didn’t “have a desire” to put the effort in. But I was tired of feeling tired and rarely feeling good so I hung on every word she said and followed instructions to the letter. Her kind, dedicated persistence totally and completely empowered me to turn my health around. It’s been almost one year, my skin looks better, my hair is recovering, my joints no longer ache and I have energy all day. I’ve learned that food choices are vitally important to your overall health. Quieting your mind for a few minutes each day is vitally important. Susan Wilder, MD, and her incredible team literally, changed my life. They remain the driving force behind every choice I make today in terms of my health and well-being.”

– Kim C.

“Dr. Susan Wilder has been my primary care physician for over 10 years. Her advice and guidance are unmatched by others in the health care community. Her compassion and empathy is without peer. I have significantly benefited from her assistance and direction. I am healthy and strong with many, many thanks to her!”

– Steve M.

Whole health for a whole life

Introducing a new model of personalized family care.

Benefits of Concierge Medicine

At LifeScape Premier, our promise to you is "Whole Health for a Whole Life". As your care provider we will strive to give you proactive care as opposed to reactive care. To accomplish this, you will have more time with your doctor, because we want to be your partner in your journey to wellness.

With Premier Concierge Care, we incorporate a functional medicine approach to account for all aspects of your lifestyle, to get to the root causes, without merely slapping a prescription or a "band-aid" on a serious health issue.

Premier Concierge Care also means that you will receive your doctor's cell phone number for emergency use/after hours and access to your dedicated health coordinator's number and email address for appointments, referrals, and prescription refills. With concierge medicine, you no longer need to scramble to set up a last minute appointment. And no more visits to urgent care when you aren't feeling well and need care fast. Your concierge physician is dedicated to being your partner through all your healthcare needs.

While anyone can benefit from joining a concierge program, it's particularly effective for:

- > Individuals who believe in preventative healthcare
- > Patients managing a chronic condition
- > People with specific health goals and objectives
- > Teens & college-aged kids who would benefit from direct access to a skilled healthcare provider they trust
- > Parents who want to provide the most proactive preventive care for their precious little ones
- > Individuals looking for a healthcare advisor and partner in their health, as well as a physician

How Does the LifeScape Concierge Program Work?

LifeScape Premier is a direct medical practice wherein patients contract directly with their provider for services, free of insurance constraints. Membership is limited, allowing for improved access and more thorough, personalized medical services. There is an annual fee for these services that is outside of your insurance coverage. It can be paid by check, major credit card or through a Health Savings Account (HSA) at work. There are easy payment plans available as well (semi-annually or quarterly). We do offer discounts for couples and dependents.

What You Get

Our Premier Concierge Care plan includes:

- > Comprehensive Executive Physical
- > Unlimited visits
- > Direct access via cell or e-mail with your concierge provider
- > Video conferences when clinically appropriate
- > Home visits when clinically appropriate if you are unable to come to the LifeScape clinic
- > Direct advocacy and care oversight with specialists, emergency or hospital care teams, home, or nursing care (direct inpatient care generally done through hospital specialists with your concierge physician acting in advocacy and oversight position. Please note that we cannot write orders in charts if not on hospital staff)
- > Consultations with LifeScape Premier Functionally trained Registered Dietician
- > Consultation with LifeScape Premier fitness coach (personal training available at an additional fee if desired)
- > Mental wellness / stress management or life planning or executive coaching consultation with Clinical Psychologist (phone visit capable)
- > High level of personal clinical support with convenient daytime phone contact
- > Preferred scheduling: same- or next-day appointments and longer visits
- > Special membership pricing for children, young adults and corporate memberships available to LifeScape Members
- > LifeScape Premier administrative fee is included
