

We put patients first, offering you and your family more time with your physician and a collaborative approach to your wellbeing.

“Through injuries, ailments, and even surgery, Dr. Susan Wilder has been a champion for my personal health and well being. I continue to receive unparalleled medical care, when and where I need it, from a doctor who has invested in me as both a patient and as a friend.”

- Coby C.

“I have been a patient with Dr. Wilder since around 2001 and became a concierge patient when Lifescope took on the concierge program. From the beginning, I found the entire staff, and Dr. Wilder as my PC, is wonderful at educating the patient in how to take care of themselves, understanding their bodies, and treating the patient as an individual, rather than "by the book". Wow, what a concept! Many forms of treatment are considered based on the patient's need, including holistic methodologies. Lifescope Premier is, without a doubt, truly a premier medical group where it is, first and foremost, always about "what's best for the patient".”

- Annie G.

Whole health
for a whole life

Benefits of Concierge Medicine

At LifeScape Premier, our promise to you is “Whole Health for a Whole Life”. As your care provider we will strive to give you proactive care as opposed to reactive care. To accomplish this, you will have more time with your doctor, because we want to be your partner in your journey to wellness.

With Premier Concierge Care, we incorporate a functional medicine approach to account for all aspects of your lifestyle, to get to the root causes, without merely slapping a prescription or a “band-aid” on a serious health issue.

Premier Concierge Care also means that you will receive your doctor’s cell phone number for emergency use/after hours and access to your dedicated health coordinator’s number and email address for appointments, referrals, and prescription refills. With concierge medicine, you no longer need to scramble to set up a last minute appointment. And no more visits to urgent care when you aren’t feeling well and need care fast. Your concierge physician is dedicated to being your partner through all your healthcare needs.

While anyone can benefit from joining a concierge program, it’s particularly effective for:

- > Individuals who believe in preventative healthcare
- > Patients managing a chronic condition
- > People with specific health goals and objectives
- > Teens & college-aged kids who would benefit from direct access to a skilled healthcare provider they trust
- > Parents who want to provide the most proactive preventive care for their precious little ones
- > Individuals looking for a healthcare advisor and partner in their health, as well as a physician

How Does the LifeScape Concierge Program Work?

LifeScape Premier is a direct medical practice wherein patients contract directly with their provider for services, free of insurance constraints. Membership is limited, allowing for improved access and more thorough, personalized medical services. There is an annual fee for these services that is outside of your insurance coverage. It can be paid by check, major credit card or through a Health Savings Account (HSA) at work. There are easy payment plans available as well (semi-annually or quarterly). We do offer discounts for couples and dependents.

What You Get

Our Premier Concierge Care plan includes:

- > Comprehensive Executive Physical
- > Direct access via cell or e-mail with your concierge provider
- > 4 Skype visits per year when clinically appropriate and direct visit is impossible
- > Home visits when clinically appropriate if you are unable to come to the clinic, for an additional fee
- > Direct advocacy and care oversight with specialists, emergency or hospital care teams, home, or nursing care (*Direct inpatient care generally done through hospital specialists with your concierge physician acting in advocacy and oversight position; please note that we cannot write orders in charts if not on hospital staff*)
- > Consultation with LifeScape Premier Nutritionist
- > Consultation with LifeScape Premier Fitness Coach (personal training available for an additional fee)
- > Mental wellness and stress management, or life planning or executive coaching consultation with Clinical Psychologist (*phone visit capable*)
- > High level of personal clinical support with convenient daytime phone contact
- > Preferred scheduling: same- or next-day appointments and longer visits
- > Children 21 and under are included in the program for \$800 each when a parent joins (includes annual wellness exam and flu vaccine; other lab or vaccines not included)
- > LifeScape Premier administrative fee is included
- > 15% discount on Medical grade skincare products and nutritional supplements
- > Access to personal health records online via IQ Health
- > E-prescribing: prescriptions sent electronically to pharmacy or called in for expedited fulfillment
- > Consultation with our Licensed Aesthetician - Noelle Cesario, National Laser Trainer. Book your consult online at: <https://www.lifescapepremier.com/medical-aesthetics/>
